

# **Outstanding Classified Employees and Officers of Administration Recognition Award Recipients**

These two recognition programs were specifically created to acknowledge excellence in officers of administration and classified employees. Each year, a selection committee comprised of faculty, administrators, classified and student representatives is formed to review the nominations and selects award recipients using the established criteria listed on the nomination applications. Using the criteria outlined in the application the selection committee bases its decision solely on the information provided on the two distinctive nomination applications and letters of support.
